

Galilee International Management Institute Programmes for Israel-Czech Chamber of Commerce and Industry

Introduction

Galilee International Management Institute (GIMI) develops advanced capacity building courses for professionals from over 170 countries. Since our establishment in Israel in 1987, we have received a global reputation, as a leading management institution. To date more than 20,000 senior managers, administrators and planners have graduated from our programmes.

The programmes bring together professionals from across the globe for an intensive study experience and also provide networking opportunities in Israel. Our participants see first-hand, via field trips the many innovations, hard won solutions and learn directly from top experts.

The programmes are approximately two weeks in length and are designed for officials and policy makers from the Ministries, consultants, professionals from government and public utilities, research and extension officers, entrepreneurs, commercial growers and academic faculty members.

We also offer organisations the option to tailor a programme according to their specific needs. Customised programmes are appropriate for organisations with specific goals, as they can also be oriented towards implementation.

Based on the agreement with the Chamber of Commerce and Industry Galilee Institute is contributing 50 scholarships to Czech managers and leaders. These are for the Czech Chamber members to benefit by attending one of the following programmes:

Agribusiness and Postharvest Management

16 - 29 October, 2018

SMEs: Creating Growth through Entrepreneurship and Innovation

16 - 29 October, 2018

Health Systems Management

14 - 27 November, 2018

Management of Higher Education Institutes

24 January - 4 February, 2019

Contemporary Public Administration Management

24 January - 4 February, 2019
