
1. kolo GAMA 2 (2019)

??? Information on the competition, which took place in the autumn of 2019. Projects are supported in the period 2020 to 2022. The 2nd round of the competition will be announced at the turn of August and September 2020. We will add more information soon.

What do you need to know about GAMA 2 program?

- The GAMA 2 program of the Technology Agency of the Czech Republic is focused on supporting the verification of the applied research outcomes and experimental developments in terms of their practical application and on the preparation of their subsequent commercial use or use for the needs of society. Therefore, it focuses mainly on the proof-of-concept phase. **The funding is not intended for fundamental research.**
- Charles University received funds in the amount of **CZK 16,112,000 for the years 2020–2022** (including administration), which will be subsequently distributed among selected projects, which are realized at the given departments of Charles University.
- The main goal of Charles University here is to **support high quality projects** with results suitable for potential commercial use. It is not about the quantity of results and the size of the funding for a selected project is not limited.
- The overall coordination and administration of the project "Support of the commercialization process for research and development outcomes at Charles University II" is provided by the Center for Knowledge and Technology Transfer of Charles University. The responsibility for the implementation of selected projects is carried by the faculties, where the projects supported by the program are implemented.
- The Rector of Charles University decides on the allocation of support to selected projects based on the evaluation and recommendations of [the Board for the Commercialization of Charles University](#)

Who is the GAMA 2 program aimed for?

The support is intended for **employees and students of Charles University** on the proof of concept of the research outcomes from the point of their practical application on the market and on the preparation for the subsequent commercialization.

That is the funds allocation?

The project allocation is recommended in the range of **200K-800K CZK for a project**. However, the maximum is not defined.

What is the project duration?

The project duration is recommended in the range of **3 to max. 18 months**.

What are the eligible expenditures?

- Personnel expenses (max. 40%)
- Subcontracting expenses (max. 20%)
- Other expenses (e.g., intellectual property protection, materials, travel expenses, services)
- Indirect expenses (max. 25%)

What should a complete application contain?

1. [Project form](#)
2. **Mandatory consultation** on the project with CKTT/CUIP team
3. **Personal presentation** about the project to the members of the Board for the Commercialization of Charles University

Do you want to participate?
