Participants will learn how the EntreComp framework can be linked to learning objectives and translated into specific teaching activities. </p> <p> The workshop is hands-on: participants do not just listen, but actively work with the tools and, using a model example, try out how they can be applied when preparing or adapting their own lesson or teaching materials. </p> <p> Participants leave with a concrete idea of how to integrate entrepreneurship into their own teaching and the preparation of teaching materials. After completing the workshop, they will be able to describe the structure of the EntreComp framework, navigate selected supporting tools, and identify ways to integrate entrepreneurship competences into their own teaching practice. </p> <!-- LEARNING OUTCOMES --> <h2 class="cuni-heading">What
```

participants will gain

- Basic understanding of the EntreComp framework
- An overview of tools for teaching entrepreneurship
- How to connect entrepreneurial competences with learning objectives
- How to use the tools when creating teaching activities and materials
- How to integrate entrepreneurship into their own teaching
- A concrete proposal for an activity or an adaptation of their own teaching
