# Courses for external organizations

---

## Train your employees with CKTT!

We offer training **courses and seminars/webinars tailored to specific needs of companies and academic institutions** to provide their employees with expertise in **knowledge and technology transfer, copyright** or use of **databases**. All the seminars and courses can be designed to meet **specific needs of your organization**.

The **price** of our courses will be **agreed with you**. **Participants** will be provided with **certificates of completion**.

### Do you have questions?

Please, contact Petra Práglová, our education administrator:

**Mail:** [petra.praglova@ruk.cuni.cz](mailto:petra.praglova@ruk.cuni.cz)

**Phone:** +420 224 491 255

The training courses and seminars/webinars can be funded under the call No. 02\_18\_054 (Development of capacities for research and development II).

## We offer training courses in the following fields:

- [Knowledge and technology transfer](#)
- [Copyright](#)
- [Databases](#)
- [Other training /subject to an agreement/](#)

## Knowledge and Technology Transfer

### Management of Science and Innovation

? Practical one-semester online course in English

? You can take the whole course or only its selected parts – the price depends on the number of lessons taken

The standard form of the course is a **series of webinars** organized **twice a year** in October – January and in February – June. **It focuses** on **management of science, project management** and **technology transfer**.

**Materials** for the individual modules have been prepared by experienced **professionals from practice**.

The course is intended for those of you who are **interested in innovations** and want to learn more **about knowledge and technology transfer** to practice and to those who are already participating in similar projects or have the ambition to lead successfully such projects in the future.

**An overview of topics** addressed by the course (distance modules 2 through 12) are ? [here](#) . The course will be available from October 2020.

## Online course Excellence-in-ReSTI /free of charge/

? Get your training **right now and for free!**

? Online course for everyone on the **MOOC platform**

? **ReSTI = Research, Social and Technological Innovation Project Management**

The course will present to you **topics** that are **critical for management of projects focusing on research, social and technological innovations**; you will become familiar with **EU policies**, as well as with topics associated with **projects of social innovations, funding, IPR or marketing and communication**. ? [READ MORE](#)

## Author's rights and copyright

? Seminar or webinar with **Q&A opportunity**

? The **lecturer**, [Mgr. Matěj Machů, Ph.D.](#) is an **expert in intellectual property rights** with extensive **practical experience**

? The course may be adapted to suit your specific needs; based on an agreed upon price

The course **focuses on protection and exploitation works of authors** in the context of knowledge transfer based on the Author's Rights Act and explains the basic terms, such as **work of an author, collective works, employee's work, computer program and database**. The seminar also deals with **constitutional, civil and public law protection**, as well as related issues of **international law** in the field of author and copyright law and **applicable international agreements**. Included are also topics of **protection of personal rights** and **moral rights** of the author.

## Databases

? Seminar or webinar with Q&A opportunity

? The **lecturers**, Bc. Yeva Prysiashniuk and Ing. Antonín Králík, Dr. rer. nat. , are **experienced analysts** specializing in **patent consulting** and **analysis of market potential**

? The course **may be adapted** to suit your **specific needs**; based on an agreed upon price

You will learn **which databases are available** in research of commercialization potential and patents. The course will focus on available **sources of information** useful for **patent searching**, **evaluation of a commercial potential** of scientific research and on how to get updated information about technology transfer. The seminar/webinar will also **include an example** of how to use such sources in the most effective way.

**Other training opportunities are available /subject to an agreement/**

**We are able to prepare for you other tailored courses** in the above mentioned and related fields.
