
Board for the Commercialisation

Board for the Commercialisation of Science and Research Results of Charles University is an advisory body for the University Rector in matters of commercialization of results of science and research. Within the GAMA project the Board evaluates individual commercialization ideas and recommends to the University Rector which of them should be supported. The Status of the Board is defined in the [Rector's Measure No. 1/ 2017](#) . Currently, the Board has 15 members.
